

## Description

High Bay Plus is a breakthrough in industrial lighting. The smooth housing is NSF certified and suitable for wash-down with high pressure water jets. The highly efficient heat dissipation combines performance with function due to the uni-body design. The fixture housing is arched to permit water and dust to easily be removed. The design concept is unibody, which adds to the aesthetic simplicity of design, while allowing for the maximum heat dissipation, which translates to great efficacy and performance.
